The Four Way Test

Of the things we think, say or do

Is it the TRUTH?	Is it FAIR to all concerned?
Will it build GOODWILL & BETTER FRIENDSHIPS?	Will it be BENEFICIAL to all concerned?

**April 28 — Ginger Hardage — Southwest Airlines
Sr. VP for Culture and Communications — Career Day**

Hardage believes she has her dream job at Southwest Airlines, a company that is known for its legendary culture and reputation and a perpetual standout on *Fortune's* Top 10 "Most Admired Companies in the World." Hardage oversees the activities that nourish that culture and the internal and external communications function for one of the largest domestic airlines. She is a member of various

executive committees at Southwest and leads its "Best Place to Work" initiatives. She is an avid public speaker at universities and organizations ranging from Google to Princeton University on topics related to "Building a Brand from the Inside Out."

Before beginning her career at Southwest Airlines in 1990, Hardage held a variety of marketing and public relations positions at Maxus Energy Corporation, Diamond Shamrock Corporation, and Life Insurance Company of the Southwest.

Hardage earned a B.A. in advertising/public relations from Texas Tech University in Lubbock, Texas, where she has been recognized as an outstanding alumna by the College of Mass Communications.

Hardage serves on numerous boards including the International Board of Trustees for the Ronald McDonald House Charities. *PRWeek* has included her in its 2013, 2012 and 2011 top 50 power list, and named her as one of the 50 most powerful and influential women in public relations.

A long-time friend of our member Elizabeth King, Ginger lives in Dallas with her husband, Kelly, and has grown stepsons, Patrick and Ross.

**May 5 — Don Barry — Wichita Public Library Foundation Board President and
Cynthia Berner Harris, Director of Libraries for the Wichita Public Library**

Don Barry and Cynthia Berner Harris will present the status of a new central library in Wichita.

Does Wichita need a new central library to replace the current facility opened nearly a half century ago? Our presenters think so. They have been shepherding just such a plan through channels since 2006. Just where is the project? What are the common misconceptions that continue to enter the dialogue? How would a new central library be able to better serve every citizen, young and old, technologically-connected or not.
