**How It Impacts Your Bottom Line**

Much has been written about the aging disease of Alzheimer's, with a focus on patients and their families. But Alzheimer's also has a significant impact on the business community. Dr. Stephen Benson will discuss the financial effect of Alzheimer's, not only to the patients and their families, but to the businesses which employ the caregivers or have lost employees who have been forced to leave the workforce to care for a loved one.

Dr. Benson is a licensed clinical psychologist specializing in adult and older adult psychotherapy, testing, and consultation. Originally from the Seattle area, he did his training at Rosemead School of Psychology in Los Angeles and then completed a post-doctoral fellowship in San Antonio. He has been practicing in Wichita, Kansas since 2000. Dr. Benson provides a variety of services for individuals ages 18 and older. He also specializes with older adults and is recognized as an expert in geriatrics, frequently consulting with medical and legal professionals, social services agencies, nursing facilities, and families.

## ROTARY MEETING — MARCH 28, 2016

Dr. Don Blakeslee delivered a fascinating program on the archeological study in the Ark City area being conducted to discover the history of a large population of Native Americans thought to have settled there more the 500 years ago. It is estimated about 20,000 ancestors of the Wichita tribe settled in that area, which they named Etzanoa.

Doug Stark introduced new member Fe Vorderlandwehr on Monday. Fe is the executive director of the Alzheimer's Association and a Fireside meeting host next week. Welcome, Fe!

Aaron Bastian celebrated his 10-year anniversary with Rotary, including one year with our club and nine years with a club in Oklahoma, where he served as president.

## DOWNTOWN CLEAN UP PROJECT APRIL 9
